

## Table rock salt coarse to grinders

### Advantages:

- pure rock salt
- completely natural
- without any additives
- special grain size

### Field of application

Table rock salt – coarse is a food grade salt for private households and for the industrial needs. It is especially suitable for decorating of baked goods and to salt grinders.

### Product

Formed in primeval oceans 200 million years ago, Table rock salt - coarse is mined from these untouched natural deposits located in Northern Germany. This pure natural salt contains only natural minerals with no artificial additives.

- Rock salt from ancient seas
- Natural product without any additives
- Special grain size suitable for salt grinders
- Special grain size suitable for decorating of baked goods
- Constant quality control

### Product properties

The product is made from pure natural rock salt without any additives. It is ideal for salt grinders, seasoning dishes in households and for decoration of baked goods. It can be used also for the preparation of dishes and preservation of food. Perfect grain sizes, pouring properties and natural purity are the hallmarks of the Table rock salt - coarse. The product does not contain allergens and GMO.

### Product quality

The salt is characterized by naturally pure white crystals. It comes from the depths of 400-750 metres. The product satisfies legal requirements of ES and Czech Republic. We guarantee consistently high product quality through continual quality checks and seamless traceability.
