

## Table rock salt with iodine and fluorine, fine

### Advantages:

- naturally pure rock salt
- enriched with iodine and fluorine

### Field of application

Table rock salt with iodine and fluorine is a food-grade salt for private households. This our product can be used for multiple purposes and adds the right flavour to all kinds of dishes.

### Product

Rock salt comes from ancient seas. Formed in primeval oceans 200 million years ago, rock salt is mined from these untouched natural deposits located in Northern Germany. This pure natural salt contains only natural minerals and it is enriched with iodine and fluorine.

- Rock salt from ancient seas
- Natural product with iodine and fluorine
- For seasoning dishes
- Main source of iodine and fluorine for consumers
- Constant quality control

### Product properties

This product is made from pure and natural rock salt and is enriched with iodine and fluorine. It is ideal for the preparation of foodstuffs and seasoning dishes in households. Perfect grain sizes, pouring properties, natural purity, iodine and fluorine are the hallmarks of the Table rock salt with iodine and Fluorine. The product does not contain allergen substances and GMO. Table salt enriched with fluorine can be consumed in a maximum amount of 4 g a day and it can not be used together with fluoride tablets!

### Product quality

The salt is characterized by naturally pure white crystals. It comes from the depths of 400-750 metres. The product satisfies legal requirements of ES and Czech Republic. We guarantee consistently high product quality through continual quality checks and seamless traceability.
