

Food grade PDV salt

Ultra-pure vacuum salt for food production

- Maximum purity
- Perfect grain size

Field of application

Food grade PDV salt is ultra-pure product intended for seasoning dishes and preservation of food during the food production.

Product

Food grade PDV salt is ultra-pure vacuum salt. The various grain sizes and added iodine mean that it can be used in various applications, such as the processing of dairy products, spice blends and baked goods. Food grade PDV salt – compacted (grain size 1 – 3 mm) is suitable for decorating of baked goods. The products do not contain allergens and GMO.

- Maximum purity
- Complete solubility
- Also available iodized

Product properties

Food grade PDV salt is made from extra-pure and fully soluble food grade vacuum salt and is ideal for use in the food industry. Excellent pouring properties, perfect grain sizes and residue-free solubility are the hallmarks of the food-grade PDV salt.

Product quality

Food grade PDV salt is a high-purity vacuum salt with a sodium chloride content of 99,8%. This high level of purity is achieved through a careful crystallization process and the use of particularly pure and unadulterated brine. The food grade vacuum salt used satisfies the requirements of the Codex Alimentarius and the FCC VII.
