

Table sea salt with iodine

Advantages:

- sea salt
- contains natural minerals
- enriched with iodine

Field of application

Table sea salt with iodine is a food-grade salt for private households. This product can be used for multiple purposes and adds the right flavour to all kinds of dishes.

Product

Sea salt is obtained by evaporation of seawater in warmer climates, mostly Italy, Portugal, Croatia, France and Slovenia. It contains natural minerals and it is enriched with iodine.

- Natural product with iodine
- For seasoning dishes
- Main source of iodine for consumers
- Constant quality control

Product properties

The product is made from pure food grade sea salt. It is enriched with iodine. Table sea salt with iodine is ideal for a preparation of food and seasoning dishes in households. Grain size, pouring properties and iodine are the hallmarks of the Table sea salt with iodine. The product does not contain allergens and GMO.

Product quality

The product satisfies legal requirements of ES and Czech Republic. We guarantee consistently high product quality through continual quality checks and seamless traceability.
