

Table vacuum salt with iodine

in two product varieties

Advantages:

- high-quality vacuum food-grade salt for household consumption
- enriched with iodine
- excellent free flowing salt

Field of application

Table vacuum salt with iodine is a food-grade salt for private households. This our product can be used for multiple purposes and adds the right flavour to all kinds of dishes.

Product

Table vacuum salt with iodine is ultra-pure vacuum salt obtained by a controlled crystallisation of the brine. It is enriched with iodine and treated with anti-caking agent, which prevents the salt against caking during the storage.

- high-quality vacuum food-grade salt with iodine
- for seasoning dishes
- main source of iodine for consumers
- excellent pouring properties
- constant quality control

Product properties

This product is made from ultra-pure vacuum salt and is enriched with iodine. It is ideal for the preparation of foodstuff and seasoning dishes in households. Perfect grain sizes, pouring properties, purity and iodine are the hallmarks of the Table vacuum salt with iodine. The product does not contain allergen substances and GMO.

Product quality

The salt is characterized by pure white crystals. It is enriched with iodine and the anti-caking agent (sodium ferrocyanide) prevents it against caking. The product satisfies legal requirements of ES and Czech Republic. We guarantee consistently high product quality through continual quality checks and seamless traceability.

Certification

The company holds a valid certification according to ČSN EN ISO 9001:2009. Strict compliance with hygiene requirements is confirmed by the HACCP system.

Service

We offer our customers quality service, ensuring high product quality and reliable deliveries.
